

SCHOOL PHOTOGRAPHY DAY

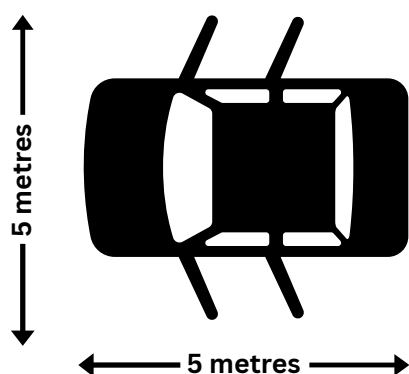

ROOM SIZE REQUIREMENTS

PORTRAIT SPACE REQUIREMENTS

Each portrait setup needs a minimum area of 5 × 5 metres.

How much space is that?

The space required for set-up is roughly equivalent to a **medium-sized parked car with open doors**. This allows the space we need for photography and safe and easy traffic flow.

GROUP SPACE REQUIREMENTS

Standard Class Groups – Minimum Space:

- Height: 4 m
- Width: 6–8 m
- Depth: 8–10 m

How much space is that?

The space required is equivalent to half a basketball court for single groups, or a whole court for large graduation groups, etc. Depending on your school facilities, photography can take place in the gym or in a space of equivalent size.
